CHANGELOG 0.1.11.dev

- 231209piu_c build packages for:
 - application deployment package ==> dist/0.1.11-x12roefact-0.1-win64.msi
 - excel invoice template package ==> dist/0.1.11-excel_invoice_template.zip
- 231209piu_b fixed x12roefact CLI options, help, defaults, short names and STABILIZED EXECUTION
- closed 231209piu_a more actions:
 - changed README.md: translated to RO, updated installation & usage information
 - · dropped old, obsolete deployment packages
 - test PASS
- 231208piu_b add an INVOICE TEMPLATE (excel_invoice_template/invoice_template_CU_tva.xlsx) as deliverable with application
- 231208piu_a review, cleaning and formatting code (generalized & moved some debug-verbose code from rdinv to x12roefact.x12json), test PASS
- 231207piu_b cleaned rdinv of "...for debug purposes..." prints, test PASS
- 231207piu_c reviewed and updated x12roefact: README, LICENSE, pyproject.toml
